Course Title: *Safety Awareness Course on Underwater UXO*

Course ID: *UW-UXO_R&S/08-2022*

Date: *To Be Scheduled (TBS)*

Venue: *To Be Determined (TBD)*

Course Fees: *To Be Negotiated (TBN) – Based on Class Size*

Course Description and Objectives

Underwater Un-eXploded Ordnance (UXO) are considered to be the most dangerous categories of military munitions in the underwater environment. Upon the discovery of the underwater UXO they shall be carefully and properly dealt with. This one-day safety awareness course is developed for those who work in the Underwater Services Industries on how to recognize and respond to any suspected underwater UXO they may encounter in the course of their work.

At the end of the course the attendees will gain a good safety knowledge on the explosive hazards of the underwater UXO; they will be aware in the types of underwater UXO that could be found in the Singapore water and to recognize them; and be familiarized on the 3Rs (Recognise, Retreat, Report) approaches for dealing with the discovered underwater UXO.

Course Outline

1. What are Underwater UXO and the primary ways that Ordnance ends up underwater
2. Types of Underwater UXO found in Singapore Water
3. Safety, hazards and risks of underwater UXO
4. 3R approach and procedures for dealing with the discovery of suspected underwater UXO
5. Lesson learned from the incidents/accidents involving underwater UXO

Course Duration

8 hours (1 day)

Award

“Certificate of Attendance” will be awarded to all course participants.

Course Trainer

Yen Chong Lian, President, IExESG
